

## Coding Manual of Curated Gen 2/Omni 1 dataset

### Note:

1. This curated dataset contains information of Gen II and Omni 1 participants.
2. There are 5629 unique FHS participants (5123 Gen II and 506 Omni 1) within this dataset\*, with a total of 1570 variables.
3. Variables are generally grouped based on their origins (i.e., primary FHS dataset)
4. The format of the curated dataset is of wide format, with distinct variable names that allow users to tell the difference for repeated measurements of data of similar nature.
5. The first FHS core exam for Omni 1 participants started around the same time as the 6<sup>th</sup> FHS core exam for Gen II participants. However, the protocol that was used for the first FHS core exam for Omni 1 participants was that of Gen II's 5<sup>th</sup> FHS core exam. Hence, the baseline information extracted from the FHS core exams for all Omni 1 participants will have a suffix of “\_core5”. The corresponding Omni 1 core exams used in this dataset is as follow:

Omni 1 core exam cycle	Suffix
1	_core5
2	_core7
3	_core8
4	_core9
5	_core10

6. Due to COVID-19 restrictions, Gen 2 (Exam 10) and Omni 1 (Exam 5) were impacted. Hybrid Exam began in June 15, 2020 and consists of: (1) Televisit portion completed remotely through zoom or telephone (2) Onsite (Follow-up) portion completed onsite or offsite (began September 2020). Some participants requested to only complete the televisit portion of the exam, and did not do any in-person follow-up. Refer to variable “Status\_core10” for details.
7. For protocol descriptions and annotated forms of the primary datasets, refer to the respective documents of the individual source datasets.
8. According to standard FHS practice, 1 Omni 1 participant is removed as they did not show up for the baseline FHS exam.

9. One Gen 2 participant withdrew from the study as of 01/2025
10. Take note of the last verified date for outcome and mortality data:
  - a. Dementia – 12/31/2024
  - b. CVD/Stroke/AF – 12/31/2023
  - c. Cancer – 12/31/2019
  - d. Mortality/Last contact – 12/31/2022
11. Refer to [Appendix](#) for FHS core exam timeline (all cohorts)

\* Depending on the source of the datasets, consent restrictions may affect the overall N.
